

PRODIM

PRODIM PLOTTER

The Prodim Plotter is the best budget solution for your business. It enables you to easily plot digital templates for production, design and or quality control. The standard plotter uses a pen or sharpie to draw designs. You can also upgrade the plotter with a cutting option, using a drag knife and a vacuum table.

When you have created your design or prolined existing shapes, you can use the Prodim Plotter Host software to manage, edit and nest your jobs. This software is developed with three key words in mind: simple, simple and simple. This simplicity improves your production process without frustrating it.

The Prodim Plotter solution is rigid and precise making it durable and a proud step forward for your business. It is easy to use, fast and effective, saving time and helps eliminate mistakes. If the step to full CNC cutting is too big, the Prodim Plotter is your solution.

Professional Dimensioning *for* **Production Improvement**

PRODIM PLOTTER - Standard

Plotter range*: 7800 x 1830 mm / 307" x 72"

Min. Table dimensions: 8540 x 2440 mm / 336" x 96"

Plotter dimensions: 580 x 2440 x 140 mm / 22.8" x 96" x 5.5"

*depending on table dimensions and available space around the table

The package includes:

- Enclosure
- Arm and carrier
- Pen Holder + 3 Permanent markers
- Guide rail
- Prodim Plotter software

Specially developed software to run and operate the Prodim Plotter and to nest the parts of the measurements.

PRODIM PLOTTER - Large

Plotter range*: 7800 x 2540 mm / 307" x 100"

Min. Table dimensions: 8540 x 3150 mm / 336" x 124"

Plotter dimensions: 580 x 3150 x 140 mm / 22.8" x 124" x 5.5"

*depending on table dimensions and available space around the table

The package includes:

- Enclosure
- Arm and carrier
- Pen Holder + 3 Permanent markers
- Guide rail
- Prodim Plotter software

CUTTING CAPABILITY UPGRADE

A budget upgrade fulfilling only basic cutting needs.

The upgrade includes:

- Knife Holder
- 2 Replaceable drag knives,
each used for a different cutting angle
- Prodim Plotter Host software upgrade

We advise to use a vacuum table for cutting.

The cutting capability upgrade is only compatible with the Prodim Plotter - Standard.

PRODIM (VACUUM) TABLE

To be able to provide a complete solution Prodim developed its own vacuum table with air permeable cutting mats.

Specifications:

- Table dimensions: 8.54 m x 2.44 m / 28 ft x 8 ft
- Section dimensions: 1.22 m x 2.44 m / 4 ft x 8 ft
- Average vacuum area per section: 2.15 m² / 23 ft
- Strong and lightweight aluminum frame
- Levelling feet for solid foundation of the table
- Radial Vacuum Blower: high volume and high pressure
- High flow vacuum sections for optimized vacuum power
- PVC vacuum tube system

TABLE SECTION OPTIONS

- Prodim table: 7 solid sections
- Partial vacuum: 4 vacuum + 3 solid sections*
- Full vacuum: 7 vacuum sections*

* Only available for the Prodim Plotter - Standard
