PROLINER IS SURVEY

SET OUT AND CHECK YOUR 3D DESIGN

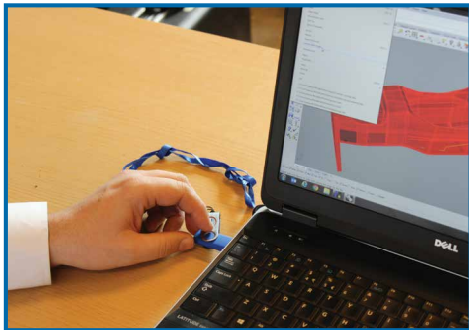

The Proliner IS Survey is a flexible and easy to use tool to define points on a free form. Thanks to its advanced functionality you can use it as a surveying tool but also for quality control.

ABOUT PROLINER IS SURVEY

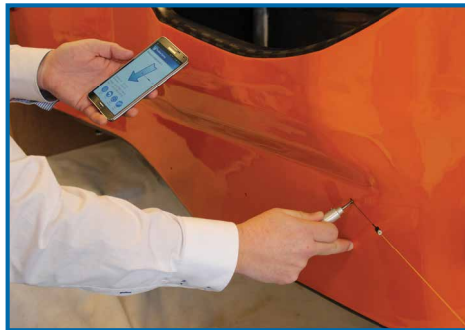

Proliner IS Survey 3D exists out of the Proliner IS and the Survey app (for android)*. Thanks to the 10" touchscreen of the Proliner IS, it is easy to select the targets and mark them. The Survey app on your phone or tablet functions as a navigation, with it you can select and navigate to the targets with extreme accuracy.

LAYOUT YOUR 3D DESIGN ON-SITE

Reference your digital plan to reality and let the Proliner IS Survey direct you to the target. The Proliner IS Survey is more reliable than traditional methods. The accuracy and flexibility of the Proliner makes it possible to manage any layout or surveying challenge on-site.

Get your targets from the Master drawing and import it on the Proliner IS.

With the Proliner IS Survey you can select and navigate to the targets with extreme accuracy.

Points	Deviations					
	Msr x	Msr y	Msr z	Ref x	Ref y	Ref z
1	-1684.1	881.7	569.8	-1684.1	882.0	568.5
2	-1172.5	874.3	1138.5	-1171.7	874.3	1138.0
3	-309.4	882.1	230.5	-308.5	882.5	231.6
4	386.4	882.0	745.4	385.8	882.0	745.4
5	2912.5	291.4	692.7	2913.2	290.2	693.5
6	-4351.1	-5303.2	484.1	-4350.3	-5301.8	481.9
7	-572.2	-5055.3	686.7	-572.1	-5056.4	683.8
8	2918.9	-4372.7	675.2	2918.9	-4375.0	670.2

Results are directly shown on the Proliner IS. You can compare the data immediately.

QUALITY CONTROL

The Proliner IS Survey is also suitable for the quality control of your measurements, CAD designs and positioning. Inspect job-sites and produced products to assure compliance with the master data. Check if the object matches the contracted specifications and regulations. Proliner IS Survey is accurate and fast, you can complete measurements on the job site and measure deviations against base data in real-time. Your phone or tablet will immediately show the measured XYZ data and on the Proliner IS you can compare the measure XYZ values with the master data.

SPEED AND ACCURACY

The benefits of the Proliner IS Survey are immediate, the speed of surveys is quicker, it is more accurate than other methods and it eliminates mistakes. It will lead to a reduction in cost and time spend on a project.

** Phone or tablet not included*
