

FACTORY SOFTWARE

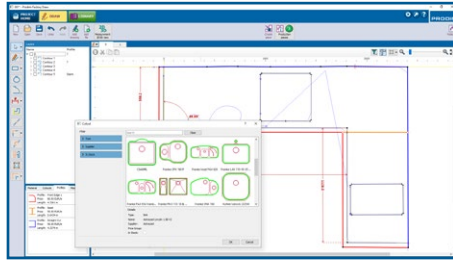

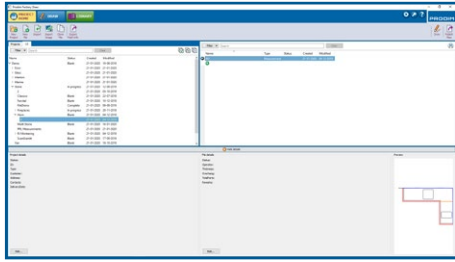

The complete software solution to digitize and optimally manage the flow of information in your stone shop

MAIN FUNCTIONALITIES	DRAW	DRAW ADV	DESIGN	FABRICATOR
Manage project files and images	✓	✓	✓	✓
Create libraries with collections of materials, cut-outs, profiles, drawing shapes	✓	✓	✓	✓
Import Proliner measurement files	✓	✓	✓	✓
CAD drawing tool: Draw a digital template from scratch or check and edit digital templates based on Proliner measurements in 2D	✓	✓	✓	✓
Create production pieces	✓	✓	✓	✓
Export drawings, reports and production files with dedicated DXF-output formats for CNC machinery	✓	✓	✓	✓
Construct multiple planes in 2D/3D and create solids		✓	✓	✓
Check and correct solid collisions in 2D/3D		✓	✓	✓
Build a digital slab inventory for engineered stone slabs: - Add slabs based on dimensions and sample images or photos - Import digital slabs from other libraries - Mark the working area, defects and reference points for CNC machinery - See what is in stock, ordered and reserved - Use digital slabs for matching			✓	✓
Get a quick cost estimation			✓	✓
Build a digital slab inventory for natural stone slabs: - Add slabs with a fixed calibrated set-up, camera and green screen - Add slabs with a flexible set-up, based on a Proliner measurement and a photo				✓
Edit CT: Use the embedded Proliner software on your desktop				✓

FACTORY DRAW

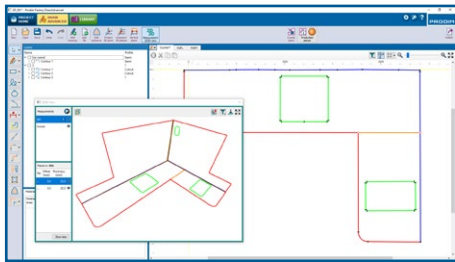

Check, edit and export digital templates with the fast and easy to use CAD drawing tool

FACTORY DRAW ADVANCED

Check, edit and export digital templates with the fast and easy to use CAD drawing tool

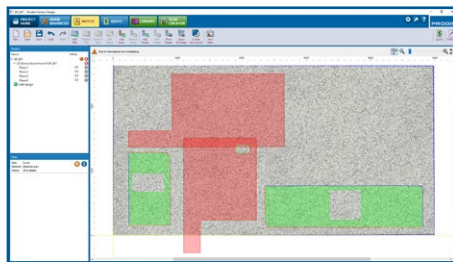

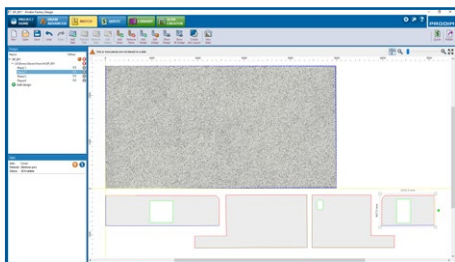

& Construct vertical planes in 2D/3D, create solids, check for collisions and eliminate all uncertainty before installation

FACTORY DESIGN

Check, edit and export digital templates, construct vertical planes in 2D/3D, create solids and check for collisions

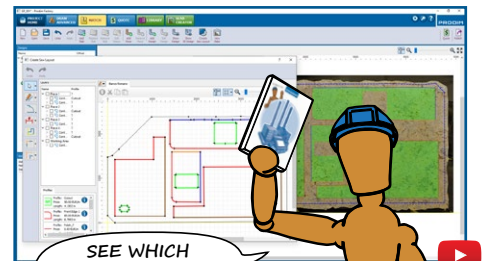

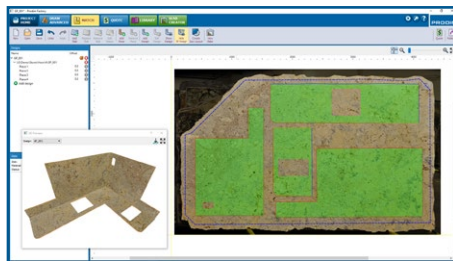

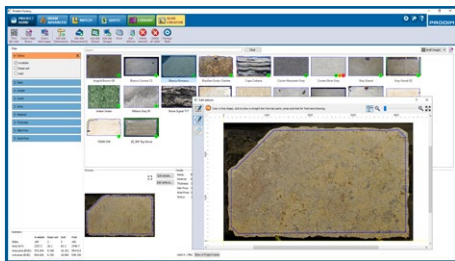

& Create slabs based on dimensions and sample images, add them to your stock and use them for matching on your solids

FACTORY FABRICATOR

Check, edit and export digital templates, construct vertical planes in 2D/3D, create solids and check for collisions

& Add real slabs to your stock using a camera set-up or Proliner measurement. Match and create aligned pattern designs
